

BENEFACT DISINFECTANT

Botanical Disinfectant

Benefect Botanical Disinfectant is the first and only authentically botanical technology professionals employ with confidence when specialized environmental cleaning is vital to maintain & restore healthy conditions. Benefect's Botanical Disinfectant, also known as "Benefect Original," is registered to kill viruses, bacteria and mold. The Botanical Disinfectant is on the EPA's List N & Health Canada's COVID-19 interim measures List. The formula contains no hazardous or synthetic components. Due to its tuberculosis claim, it is particularly valuable where there are bloodborne pathogens.
