

FIBERLOCK IAQ® 2500

Ready-To-Use Disinfectant, Deodorizer & Cleaner

IAQ 2500 delivers an EPA-designated 1-minute contact time for COVID-19 surface cleaning & disinfection proven by testing specifically against the CoV-2 emergent coronaviruses. IAQ 2500 is ideal for occupant scenarios where quick turnaround is needed & when heavy cleaning is demanded, because this formula also provides superior degreasing, emulsifying, & soil detachment. EPA-registered as a hospital-grade hard, non-porous surface disinfectant/cleaner for over 30 pathogenic viruses & bacteria in less than 5 minutes & up to as quickly as 30 seconds for some microbes. Registered for most epidemic/pandemic viral concerns including (among humans) norovirus, human coronavirus 229, hepatitis (A,B,C), influenza, mumps, rhinovirus, rotavirus; & (among animals) parvovirus, feline calicivirus & rabies. IAQ 2500 is also a Tuberculocidal in under 5 minutes.

FEATURES

Active Ingredient: Dual Quaternary Ammonium Chloride

Scent: Fresh Laundry

Storage/Freeze Thaw: 2 Years | 3+ cycles

Packaged:
32oz., One Gallon & 5 Gallon (USA)
0.95 Litres, 3.79 Litres & 18.93 Litres (CAD)
