

UV / EB / AQUEOUS / SILICONE | COATINGS & ADHESIVES

WHY ICP INDUSTRIAL?

A global leader in the development, application, and technical support of specialty coatings and adhesives, ICP Industrial delivers innovative solutions to the packaging, film, label, commercial print and industrial markets. We listen to your needs, lead the way with innovative, customized problem solving and deliver high quality products consistently.

TRUSTED, INDUSTRY LEADING COATINGS & ADHESIVES BRANDS

Built on trusted, leading product brands, our industrial platform includes Nicoat® and MinusNine Technologies. These brands deliver innovative solutions to the packaging, film, labeling and graphic arts industries. With the industry's most comprehensive portfolio, we provide quality protection for products and brands across a wide variety of markets. Coating formulations are developed and manufactured for all types of print processes including offset sheet fed and web presses, gravure, flexo, screen printing, offline coaters, digital and ink train applications. Dedication to our customers is a key ingredient to offering comprehensive solutions- from our innovative products to our superior service and technical knowledge. Our team of R&D, Technical Service and Technical Sales Managers support customers to leverage our high-performance portfolio of aqueous, UV/EB, silicone and specialty coatings and adhesive technologies. Our passion is delivering high quality customer solutions, dedication to quick turnaround times and industry leading custom innovation.

Nicoat®

MinusNine
TECHNOLOGIES

MARKETS SERVED

COMMERCIAL PRINTING

Solutions for graphic arts, commercial & publication applications.

SPECIALTY

Industry specific coating solutions for flexible & hard surfaces including wood, furniture, filters, film & pipe and tube.

LABELS

Home & personal care, food & beverage, consumer, pharma & healthcare, durable, automotive and specialty applications.

PACKAGING

Solutions to enhance & protect packaging.

PRODUCT LINE OFFERINGS

We formulate and manufacture aqueous, UV/EB, specialty, film, silicone coating and adhesive technologies for a broad range of products, effects, finishes and performance characteristics.

AQUEOUS COATINGS & ADHESIVES

- Range of Finishes (Gloss to Satin)
- Primers
- Abrasion Resistance
- Soft Feel/Tactile
- Digital Applications
- Chemical Resistance
- Low Migration/Low Odor
- FDA & Environment compliant
- Blister Pack/Heat Seal

UV/EB COATINGS & ADHESIVES

- Range of Finishes (Gloss to Satin)
- LED & UV Coatings
- Raised/Textured/Tactile
- Metallic/ Glitter/Pearlescent
- Silicone Release
- Scuff/Abrasion Resistance
- Pressure Sensitive & Laminating Adhesives
- Prop 65 & Nestle Compliant

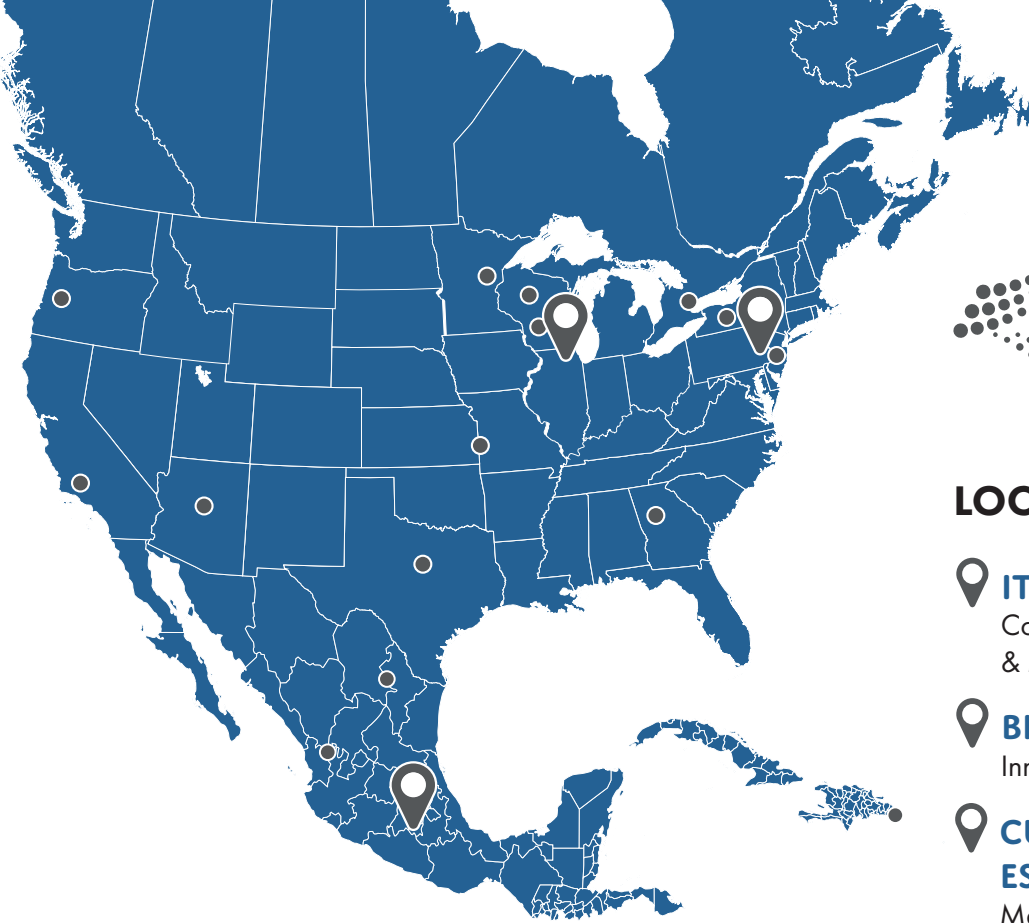

SPECIALTY COATINGS

- Flexible Films
- Pipe & Tube
- Hard Surfaces
- Wood
- Filters

CUSTOM PRODUCT DEVELOPMENT

ICP Industrial delivers unique solutions for evolving customer and market demand. We can evaluate your individual needs then customize and deliver innovative, high quality products that will solve your coating and adhesive challenges.

ABOUT ICP GROUP

Innovative Chemical Products (ICP Group) is a specialty platform company in the coatings, adhesives, sealants and elastomers (CASE) markets. We focus on accelerating organic growth through building world-class organizations and technologies and then augmenting it with strategic acquisitions.

Innovative Chemical Products plans to rapidly grow through acquisitions in both new and existing end markets, product lines and technologies, as well as maintaining a strong organic focus. This is accomplished by building outstanding management teams and strong brands that contribute to our platform growth.

Above all, innovation is the foundation of our company. Our products and brands set the standard in their markets, and our continued investment in advancing technologies, quality, and delivery brings unparalleled value to our customers in each and every market we serve.
