Benefect Botanical Disinfectant Wipes	84683-4-74771	Rhinovirus	10 minutes	Wipe

### Why do some products follow disinfection directions for human coronavirus and other products list other viruses?

The products on List N: Disinfectants for Use Against SARS-CoV-2 with target organisms other than human coronavirus qualified for the emerging viral pathogens claim and demonstrated that they work against viruses that are harder to kill than human coronavirus. However, the EPA expect that products with both claims, will be effective against SARS-CoV-2.
